NAPOLÉON, O., NOV. 17, 1881.

NEXT Saturday is Garfield's birthday.

CONGRESS will meet in regular session on December 5th.

DENVER will remain the capitol of Colorado. The people have so voted.

The next meeting of the Ohio State Grange will be held in Chillicothe, December 13.

The accounts of the Commissioners of the District of Columbia are short. They are all Republicans.

Has Bro. Fouke swung around into the Stalwart line? This is a serious question—for him at least.

The Star Route thieves will go scott free. They are all Stalwarts—and on top. Guiteau did it with his little pistol.

In Marshall county, Miss., on election day, a difficulty was begun by negroes which resulted in the death of five or six of their number and four white men.

Owing to the reading and study of one copy of the Gospel according to Saint John, sixty families in Kyoto, Japan, renounced the religion of their forefathers and became Christians.

"The Delphos Herald" says that "A prominent Ohio Republican is authorized for a statement from Charley Foster that his Ohio campaign cost him \$100,000 in hard cash. Much of it going for whisky."

The "lottery of assassination" has disclosed quite a number of Stalwarts in our midst, while before Guiteau made Arthur President an eighty rod pole could not have touched one. Greed for office will make a man do strange things.

The Republicans are not now talking so much about the Democratic party disbanding, since the November election. The old party is not dead yet, as last week it scooped in New York and Mississippi and came very near carrying Pennsylvania and Wisconsin.

The Signal says the Democrats carry New York when it does them no good. The Democrats gained the Legislature in New York last week, which is good for a gain of five or six Congressmen, inasmuch as the new Legislature will redistrict the State. That is the good the Democrats have accomplished, and they are satisfied.

There will be an effort made at the forthcoming meeting of the Ohio Legislature to make some changes that are regarded as needful in the Common School Law. Among others, the abrogation of the district system, and the adoption of the township system will be urged. A like proposition was defeated last winter, but its friends think it will be received with greater favor now.—Ed.

It is said there are in Cleveland 24,000 school children of school age who do not attend school. Napoleon has several hundred.

Mrs. ABRAHAM LINCOLN is a hypochondriac, living in a Turkish bath establishment almost next door to General Arthur's house in New York city.

A movement is on foot to annex Brooklyn to New York as soon as the great bridge connecting the two cities has been finished and give the united city the name of Manhattan.

JUDGE DODGE, at Findlay, sentenced the female forger, Florence Ducat, to five years imprisonment in the Penitentiary. He gave her this severe sentence because she sought to implicate innocent parties in her crime.

A SCHEME is being hatched out by the Republican bosses to make a new state out of Dakota territory. The idea is that this would give the Republicans two more Senators, and thus put them in a majority in the Senate.

GENET, a member of the Tweed ring, who has been in the penitentiary on Blackwell Island for eight months past has been released. In addition to imprisonment he was fined \$9,604, but his friends raised the amount and set him at liberty.

THE Washington City Republican states that frauds and fraudulent surveys in the United States land offices have been discovered. The question is "What department of the Government is not honey-combed with frauds and rascality?"

JUDGES and clerks of election in some of the townships in Mahoning county are called upon to defend themselves in court because they did not certify to Greenback votes cast at the October election. Parties certified that they voted the straight ticket while none were reported.

It is rumored that John C. New, publisher of the Indianapolis Journal, is to be appointed Minister to Russia. New, like Guiteau, is a "Stalwart of the Stalwarts." If New gets this appointment Halstead, of the Cincinnati Commercial, will butt his [Halstead's] brains out with rage, brought on by disgust for the Arthur administration.

BON INERISOLL made a strong fight in court for his Star Route clients, but it was a fight of scoundrel and scoundrel rather than law and argument. The counsel for the defendants are not fighting the case on its merits, but are attempting to free their clients on technicalities.—Cleveland Leader.

But Bob succeeded in freeing his friends. The half-breeds might just as well give in first as last.

MR. WEAVER, the Greenback candidate for President last year, has in him a vein of dry humor with which he sometimes "points a moral or adorns a tale." In a speech in New York City last week, he drew the following humorous picture of the difference between a \$1 Greenback note and a \$1 National Bank note:

"He said there was an irrepressible conflict between them. The Republicans had declared that the greenback must go, and the Greenback Labor party had declared that the National Bank must go. The greenback, which is the people's money, has a portrait of Washington on it. The National Bank note has a picture of two women bare-headed and barefooted in a wheat field. That illustrates the poverty that is brought on by the National Bank."

The most short-sighted selfish editor we know of, lives in Missouri. He talks in this way: A doctor will sit down and write a prescription; time, five seconds; paper and ink, one-fourth of a cent, and the patient pays one, two, three, five or ten dollars, as the case may be. A lawyer writes ten or twenty words of advice and gets from ten to twenty dollars from his client. An editor writes a half column puff for a man, pays a man a dollar for putting it in type, prints it on several dollars worth of paper, sends it to several thousand people, and then surprises the puffed man if he makes any charge.—Ed.

SENATOR THURMAN thinks that the tendency of public opinion in Europe is toward the views entertained in America—that is: toward a rehabilitation of silver and fixing by convention or statutory enactments a uniform ratio between the two metals. That the fluctuations of value between these metals is productive of serious evil. Mr. Thurman says seems to be generally admitted, and that a remedy ought, if possible, to be discovered and applied, was not denied. Before the meeting of the Monetary conference in Paris some pains had been taken to spread the impression that the United States advocated bimetalism in order to obtain a market for their silver, and for no other purpose; but the facts laid before the conference and the speeches of the American delegates completely dispelled that error.

Why should the Internal Revenue Department be abolished, asks the Stark County Democrat, when it is able upon short notice to assess and collect sixty thousand dollars, to give to Mahone to elect his re-election ticket, and ten times that amount if necessary in a Presidential campaign? The whisky and beer and tobacco interests can stand an almost unlimited amount of squeezing, when it is known it is all for the benefit of the Republican party. One hundred millions of dollars or more are now collected more than is necessary to carry on the Government, and a whole army of officials kept employed to collect it. They are always good for corruption money at every election. The Internal Revenue Department must not be interfered with as long as the Republican party is in power.

POSSESSION of the New York Legislature is a prize that exceeds in value all that the Republicans have gained this year. It will gain the Democrats several Congressmen, and enable them to apportion the state so as to hold the Legislature for years to come. It will put New York firmly in the line of Democratic states. Now let the Democrats of New York City and Brooklyn stop their fooling, suppress their bosses, and there will be no danger that New York will be anything but Democratic hereafter.—Plain Dealer.

THE State capitol at Austin, Tex., was entirely destroyed on Wednesday of last week by an incendiary fire. The majority of the State archives were saved, but the battle-flags of the old Republic, the seals of foreign nations and the library were destroyed, together with the monument commemorating the massacre of the Alamo, which stood in the portico of the building.

"PINKEY" has spread with great rapidity among the horses in Cincinnati. There are more than one thousand of them down with it now. The disease is not often fatal, but it disables the animals for a long time.

SMALL-POX is spreading over the country. Chicago and Ft. Wayne are infested quite severely.

A GENUINE case of leprosy is reported from Baltimore.

In Augusta, Ga., Confederate bonds sold at from \$10 to \$11 per \$1,000.

NICKELS.

The Coinage of this Class of Coin to be Resumed.

WASHINGTON, D. C., Nov. 11.—There is some talk in the Treasury Department of the propriety of resuming the coinage of five cent nickels. When the coinage was stopped some years ago some five and a half million dollars of this coin had been issued and was found entirely sufficient. Under the late increase of business, however, the demand has been on the increase for some time, and there now remains but \$75,000 of this coin in the Treasury. The proper officials are considering the question and it is not improbable that the coinage of this class of coins may be resumed within a few weeks.

Most of the second elections for the Reichstag in Germany have resulted in favor of the Liberals. The Post, of Berlin, has caused considerable excitement by announcing that Prince Bismarck is weary of official life and will soon resign the chancellorship of the empire. The rumor could not be traced to any reliable source.

### THE LOWEST RATES TO Southeastern Kansas AND THE WEST EVER GIVEN.

Messrs. Steen & Gregory, the special excursion agents of the Wabash, St. Louis & Pacific Railway, will, on Tuesday, Nov. 23d, accompany another of their popular excursion parties to Baxter Springs, Independence, and other points, in the west and southwest.

What makes this excursion of special importance is the fact that the round trip will be lower than ever before given and more satisfactory than via any other line. The agent at this point has been especially instructed to give purchasers for Nov. 23d, advantages in this respect never before anticipated. We advise all of our readers who have been waiting for a "rate that would be cheaper than staying at home" to call and see their nearest Wabash agent at once in order to be sure of getting in on this special deal.

As before stated, the particular feature of this trip is to be the exceedingly low rates. Accommodations strictly first class, and room for all.

Pleasant Letters. They are sheets of sunshine. A Methodist clergyman, of Hartford, Conn., writes Dr. David Kennedy, of Rondout, N. Y., that "Favorite Remedy" cured him of Chronic Liver Disease and indigestion, from which he had suffered for a long time. This was splendid, but nothing more than anyone may expect who uses this medicine. One Dollar a bottle is a small consideration when health is in question. The clergyman says he is going to introduce Dr. Kennedy's "Favorite Remedy" among his people. "He can't do better."

### SIGNIFICANT.

The Republican-Repudiation Alliance in Virginia Does Its Work.

(By Cable to the Plain Dealer.)

LONDON, November 12.—The Economist says that Virginia funded bonds have fallen 6 per cent. because of the success of the Readjuster party in the recent elections.

[That shows precisely how the Republican Repudiation alliance is regarded by the financial world. The holders of Virginia bonds know precisely what Mr. Mahone's movement meant, and are not taken in by the flimsy assertions of the Republican newspapers that "the readjustment question was only an incident of the campaign." In fact, it was the great issue of the campaign. The financial barometer accurately points out the true meaning of the result. The naked fact is, as proven to be a fact by the above dispatch, that the Republican party has been aiding in a scheme to strike down the public credit of Virginia, and the success of the scheme is herein apparent.]

## An Interesting Account!

### Stone in the Bladder Expelled by Using Dr. Kennedy's "Favorite Remedy."

Mr. S. W. Hicks, of Pleasant Valley, Dutchess Co., N. Y., the son of M. E. S. Hicks, whose name may have appeared in this journal in connection with an article similar to this, writes to Dr. David Kennedy, of Rondout, N. Y., who, he said, would tell him what to do. Dr. Kennedy replied, suggesting the use of "Kennedy's Favorite Remedy," which had worked so successfully in the father's case. Mr. Hicks, who had been assured by the local physicians that they could do nothing more for him, tried "Favorite Remedy" at a venture. After two weeks' use of it he passed a stone 1/2 of an inch long and of the thickness of a pipe-stem. Since then he has had no symptoms of the return of the trouble. Here is a sick man healed. What better results could have been expected? What greater benefit could medical science confer? The end was gained; that is surely enough. Dr. Kennedy assures the public, by a reputation which he cannot afford to forfeit or imperil, that the "Favorite Remedy" does invigorate the blood, cures Liver, Kidney and Bladder complaints, as well as all those diseases and weaknesses peculiar to females. ### WIDE AWAKE for 1882.

The Editors and Publishers of Wide Awake make the following announcement of leading features for 1882:

**From the Hudson to the Nevada.**

The materials for a hundred tales of adventure are crowded into this one grand serial story of travel, by David Kerr. The author has recently visited the countries where the action of this romantic story lies: Algeria, Greece, Turkey, Albania, Montenegro, Russia—thence into Borneo among the fierce and terrifying Malays; hence all descriptions of places, people, manners and customs are accurate. (The Editors do not hesitate to say that as a brilliant story of adventure it is without an equal rival in current juvenile literature. This story will be fully illustrated.)

### Their Club and Ours

is a serial story by a boy only fourteen years old. The fun and adventures of the out-of-school life of a mixed school of boys and girls are depicted with the touch of a boy who knows he has a capital story to tell and enjoys telling it. The story will have thirty-six illustrations.

### A Long Hispano-Roman Story

of the Second Century, by Rev. Edward Everett Hale, will be a leading attraction of the Christmas (Jan.) number, and will at once take its place in the long line of Mr. Hale's famous serials. Other brilliant writers of Short Stories will contribute to the magazine during the year: Mrs. A. D. T. Whitney, Mrs. Helen Hunt Jackson (Ed. H.), Mrs. A. M. Diaz, Sophie May, Mrs. Kate Gannett Wells, Sarah Orne Jewett, Mrs. Lizzie W. Chapman, Nora Perry, M. E. W. S. (Mrs. Sherwood), Author of "Honor Bright," &c.

Rich material from the Folk-Lore of all nations has been given our best balladists and artists for a series of

### Illustrated Folk-Lore Ballads.

In the way of informing Little Citizens about their future rights and responsibilities, Wide Awake boldly takes the lead and does what no other magazine for young folks has ever done for its readers. Mr. Benjamin Vaughan Abbott is

### The Travelling Law School.

will deal with American institutions and laws; while Rev. E. E. Hale, in his to-day papers, will discuss in his vivid, dramatic way, what is timely and important in the world's affairs from month to month. Some highly interesting papers, under the quaint title of

### Old-Time Cookery & a Suit of Homespace

descriptive of early days and ways, have been written and illustrated at one of the oldest New England homesteads.

### Short Stories from the Dictionary.

by Arthur Gilman, M. A., will tell the history of certain words in a way to suggest how to use the Dictionary. Miss Harris has prepared a most charming set of

### Wild Flower Papers.

to be fully illustrated from nature by Miss L. B. Humphrey.

Among the more amusing features will be a Parlor Comedietta, running through three numbers; Games, both for indoors and out, accompanied by diagrams and spirited illustrations; and real and humorous Studies of Country Life, in pictures without text.

In the October Wide Awake was begun a Course of Readings, designed for our young folks who would like to read in a thorough manner about interesting and practical subjects. The magazine has been permanently enlarged to admit this.

### New Educational Feature.

The Reading Course for 1882 includes the following service (12 papers each):

Magna Charta Stories, edited by Arthur Gilman, M. A. Ways to things, by Rev. C. R. Talbot.

"Shirley Dare," Ed. Old Oaken, by Ernest Ingersoll.

Travelling Law School, by Benjamin Vaughan Abbott.

Little Biographies, edited by Elizabeth Butler.

Health and Strength Papers, by able authors.

What to do about it, by The Wise Blackbird.

Miscellaneous papers on Natural History, Natural Philosophy, Astronomy, etc.

Artists and Engravers have combined to produce finer illustrations than ever before, a very pleasant indication of which may be gathered from the following:

### Delightful Extravagance!

Last spring the Publishers of Wide Awake offered American artists \$500, in Three Club Prizes, for the three best drawings for Frontispieces to the Magazine. These drawings will appear in Wide Awake during 1882. The cash award of \$500, and the cost of engraving, nearly \$300 more, amounting in total expense to \$800, make the first prize picture, a Maying, the most costly frontispiece ever given in a juvenile magazine.

The music will be under the editorship of Louis C. Elson, and in advance of anything before attempted.

### Offer Extraordinary.

The subscription price of Wide Awake is \$2.50 per year; and as a special courtesy the publishers have decided to give each new subscriber for 1882, whose name, with \$2.50 in December before January 1st, the October, November and December numbers of this year free! Address:
